

# Texas Christian University

Fort Worth, TX

## Project Size

25,000 sq ft

71,300 sq ft

## Construction

Steel building system

## Facility Use

Indoor practice facilities for basketball & football

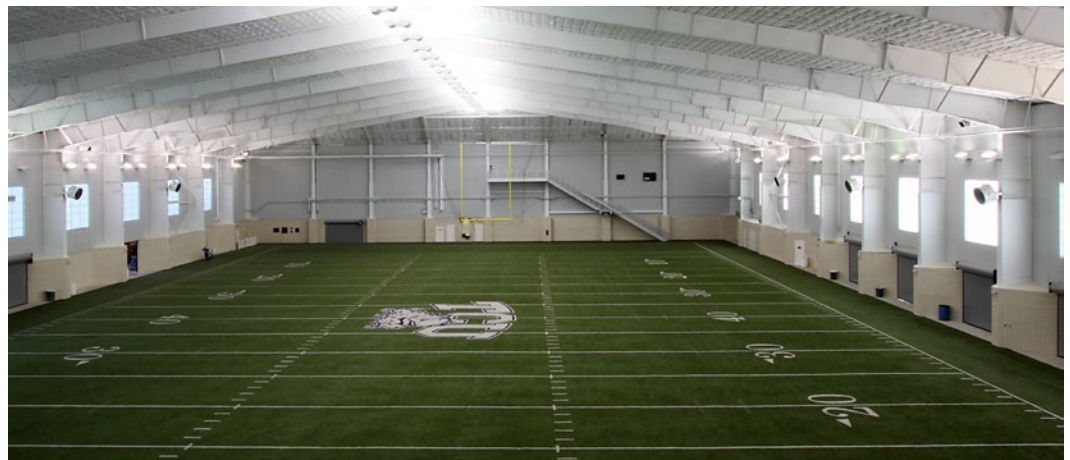

## Description

These steel building system projects were developed as practice facilities for TCU.

The 25,000 sq ft Schollmaier Complex includes two regulation practice courts and offices for the women's and men's programs.

The 71,300 sq ft Sam Baugh Indoor Practice Facility provides for a climate-controlled regulation-width 80 yard field.
